Hey, here's the cost and payment setup info for the extractions at the Broad Institute. \$107 for the extractions is pretty damn good if we can get decent amounts of DNA.

Also, they said that they would send us vials that we can use to ship on dry ice, so let???s just freeze them in the -80 after a bit of sifting and cleaning.

Matt, this is great, thanks. We'll go collect them this afternoon. Normally I think we would drop them in liquid N before going into the -80, but let's try to just pop them into the -80 and see what happens.

Please work w/Jeannette on the purchase order. Charge is to Ant Dimensions.

Thanks!

Aaron
