Hi Jim, there should have been a single tube with a single 2d barcode label on it inside of a plastic bag with the other label that had the regular barcode. I wrapped it in bubble packaging, nestled it into the dry ice, closed, sealed and shipped it.

It was just a single tube, do maybe they weren't expecting it. Could they check it again?

Thanks,
Matt

Hi Matt

They checked the box and also poured out the dry ice and went through that but didn't recover and bags or tubes.

Thanks
Jim

Hi Matt

Sure, I'll send this along to the receiving lab and ask them to check again.

Thanks
Jim

Hi Jim, there should have been a single tube with a single 2d barcode label on it inside of a plastic bag with the other label that had the regular barcode. I wrapped it in bubble packaging, nestled it into the dry ice, closed, sealed and shipped it.

It was just a single tube, do maybe they weren't expecting it. Could they check it again?

Thanks,
Matt

Hi Matt

Thanks for sending this along! We received the package but the sample handling group notified me this morning the box they received just had dry ice in it no labeled tubes containing ants. Can you check to make sure the ants were shipped?

Thanks
Jim

Hi Jim, ant samples shipped yesterday, should have gotten to you this morning. Here's the spreadsheet for the sample (attached). Not sure if you need, but just in case.

Cheers,
Matt

Hello,

This is an automated message to inform you that your Sample Kit request has been fulfilled. The 1 kit will ship out Monday via Fedex 2Day Domestic. The tracking number is [781397127919](https://www.fedex.com/track?tracknumber=781397127919).

Attached you will find a spreadsheet for the kit, the instructions for how to fill them out, a copy of The Broad Institute's local transport policy, and the SOP for dropping your samples off if you choose to do so.

The Sample Kit prepared for this request belongs to the following Sample Collection: Lau (Harvard) - Ant.

Information specific to each Sample Kit can be found below.

Sample Kit	Organism	Expected Material	Container Type	Sample Count
SK-2K8D		Frozen Whole Multiple Organisms	Cryo vial [2.0 (1.8)mL] - Labels Only	1

If you have any questions, please contact your project manager.
